Service.

For your peace of mind.

We care about your building safety and security.

We service a large portfolio of access solutions.

Buildings are meant to last and provide a safe, secure and convenient environment. Whether offices, hotels, retail shops, airports or hospitals: Safe and secure access in and around your premises is a top priority for owners, users and investors. Automatic doors, manual door closers, hotel lock and escape routes systems are complex pieces of equipment that are subject to high usage and wear and tear.

Over 150 years of experience.

With over 150 years of experience as an access and security solutions provider, we at dormakaba are in a superior position of knowledge and resources to offer preventive and reactive maintenance of hardware and software, as well as repairs and spare parts. Our nationwide teams of local, accredited and fully trained & equipped engineers are there. For your peace of mind.

Why regular maintenance?

Functionality

Fixing wearing components and malfunctions ensures that your building's access and security solutions run smoothly.

Uptime and usability

Regular maintenance reduces breakdowns and avoids accidents - ensuring your building is secure and your people are safe at all times.

People flow

Well maintained access products and solutions facilitate a smooth people flow.

Sustainability

We help you manage your energy costs and prolong the product lifecycle for greater sustainability.

Prevention is better than cure.

Enjoy the silence

We offer consulting on noise and vibration reduction, ensuring tranquility in your critical areas of work.

Compliance

Assistance in meeting the requirements of your local regulations in a cost effective way.

Building's value

Well maintained access products and solutions increase the value of your building.

dormakaba Service. Your benefits.

Swift response

Expert advice is just a call away

Team of fully trained and equipped specialists

Quick spare parts supply

Available via our global and local supply chains

Up-to-date

Consulting on modernization & upgrades

Independent support

State-of-the-art-equipment

Premium services throughout the full building lifecycle.

In the establishment phase of a solution, we work with our market partners to offer you implementation services including consulting, solution engineering, project management and the installation of the actual product as well as the later commissioning and user training.

The actual aftersales services offer preventive and reactive maintenance of hardware and software, repairs and the supply of spare parts. Should an asset reach the end of its life cycle, we offer to upgrade and modernize solutions to state-of-the-art dormakaba equipment.

Come along and join the dormakaba Service experience.

We care about the performance of buildings and provide premium services around access solutions throughout the full building lifecycle.

With our local presence, network, well experienced and educated teams as well as availability, our goal is to be your trusted partner. We never stand still but constantly question the status quo and are busy looking for holistic solutions to meet your challenges of today and tomorrow.

To best serve your need for safe and secure premises, we draw on our extensive service experience from a large variety of industries. From single retail shops and residential environments to retail chains and asset-heavy infrastructures like airports, hospitals and highly demanding industrial environments.

Our focused industries

Our Values

Our ambition derives from the values we live everyday. Anchored in our brand promise "Trust" is our striving to become the trusted industry leader. Our mission is to make access in life smart and secure, and we reaffirm our brand promise by acting according to our values.

Customer first

We focus on the needs of our customers, partners and users in everything we do.

Curiosity

We constantly scout for trends as the inspiration for future-focused solutions.

Performance

We go the extra mile to ensure customer satisfaction and set the bar high in terms of security, quality and reliability.

Courage

We are committed to continuously developing solutions that generate genuine added value for our customers and users.

Trust

Our core corporate value is at the heart of everything we do, so customers can rest assured that they are in good hands.
