

# Meet Francis Leung, dormakaba's new SVP ASEAN, AS APAC

1 July 2021

Dear Customers and Partners,

I am honoured to introduce myself as Senior Vice President, ASEAN AS APAC. As of 1 July 2021, I take over the position from Michael Chng, who has been instrumental in leading the ASEAN team through the turbulent global climate of the last 2 years.

While new to the region, I am not new to the company, nor the industry. I have been with dormakaba in various leadership positions since 1992. Most recently, I have served as SVP of dormakaba China North Asia. I am currently based in Hong Kong, and will relocate to Singapore later this year.

Having been with dormakaba for almost 30 years, our values of customer centricity and trust have been at the core of what I do for the entirety of my career. With your continued support, we hope to be able to continue to offer the best solutions for your needs. I am a strong believer in open and active communication. While meeting in person may be difficult at this point in time, I am readily available for any virtual discussions on how we can improve your experience with dormakaba.

Thank you for your support of dormakaba thus far, and I hope you will continue to support me as you have Michael.

Looking forward to working with you.

Sincerely yours,

Francis Leung  
Senior Vice President,  
dormakaba ASEAN, AS APAC
