NOTE When mounting the lock the installation instruction has to be followed.

The certificate is only valid for the local high security lock (input unit and locking device) as well as the network connection. When using a PC software, the user is responsible to integrate appropriate security measures (for instance using the PC solely for the PAXOS without any other software used on the PC). When open questions occur, it is recommended to contact the insurer beforehand.

The marking as ECB•S certified product, in compliance with this certificate, is only allowed with an approved ECB•S certification mark design as proof of conformity according to ISO/IEC 17065.
