

DORMA Automatics

Advanced Automatic Door Solutions

DORMA ED400-IG Automatic Floor Closer

For applications that need to meet access requirements as well as maintain a classic look—such as an arched door or an all-glass façade—DORMA introduces the ED400-IG Automatic Floor Closer. This revolutionary new operator conceals the automatic components in the floor near the door threshold.

The ED400-IG functions in either low energy or full power mode, and can be used in both new construction and retro-fit applications. DORMA partnered with Opcon Manufacturing Systems to construct a closer that directs the energy generated by the ED400 drive unit to the pivot in a rotating motion, thus allowing consistent, smooth operation.

The install box that stores the operator is completely weather proof and is only 7" deep. All ED400 operator functions, such as Push & Go, Power Close, and Lock Interface, are fully available in this application, which DORMA is nonetheless able to offer at a value-conscious price.

DORMA Entrance Systems™

DORMA Automatics • Crane Revolving Doors • Carolina Door Controls
