**Mounting instruction
DORMA MANET
Pivoting door system**

Важная информация:
Important information:

① = Компоненты
 Component

1. ; 1.1 ; ... = Последовательность монтажа
 Mounting sequence

Все области зажима необходимо очистить до установки фурнитуры. Используйте только специальные чистящие средства для стекол.

All glass clamping areas have to be cleaned with standard glass cleaning products prior to installation.

Не используйте растворитель
 Do not use thinners

Подготовка стекла:
Glass preparation:

Отверстие под потайное крепление.
 Hole for countersunk single-point fixing.

Необходимые инструменты:
Installation tool:

Варианты систем распашных дверей:
Versions of pivot door system:

Dieleig b...king h c...b d...h d e m
Pivoting door for installation onto ceiling

* d h...g e v = a a h 5...f k l g = a a h 8mm
* Sidelight = 5mm clearance / wall = 8mm clearance

king...v k n...m h c
Pivoting door with overpanel

king...v k n...m h c b...d h...c...g e v
Pivoting door with overpanel and sidelight

Типы осевых штанг:
Types of pivot rods:

Full-length pivot rod

Pivot rod set, short type

Pivot rod set with intermediate tube

Комплект поставки набора COMPACT:
Scope of delivery COMPACT sets:

Пары верхних/нижних коротких стержней с 4 точечными креплениями
 с промежуточной трубой

Pair of top/bottom pivot rods, short type
 with 4 single-point fixings.
 Optional with intermediate tube.

Деталь 1

Подшипник для установки в пол
 для DORMA BTS/пол

Подшипник для установки в потолок, регулируемый

PT 25 верхний шарнир с заглушкой
 PT 25 top pivot with plug

Деталь 2

Подшипник для установки в пол
 для DORMA BTS/пол

Верхний подшипник

Местоположение подшипника для перекрывающей панели

Деталь 3

Подшипник для установки в пол
 для DORMA BTS/пол

Верхний подшипник

Соединитель для перекрывающей панели/бокового света с местоположением подшипника

4. Montage des unteres Drehlager :
4. Installation of bottom pivot bearing:

Das untere Drehlager muss mit der Glasscheibe bündig enden!
 Ggf. Kunststoffscheiben einlegen oder entfernen, um mögliche
 Bautoleranzen auszugleichen!

The bottom pivot bearing must be flush with glass edge!
 If necessary insert or remove plastic disks to adjust
 height differences!

Kunststoffscheiben
Plastic disks

5. Montage des oberen Drehlagers:
5. Installation of top pivot bearing:

5.1 Oberes Drehlager mit der flachen Seite zum Glas bis zum Punkthalter auf die Drehstange schieben.
5.1 Slide the top pivot bearing with flat side to glass until it touches single-point fixing on pivot rod.

6. Griffstange bzw. Türknauf montieren (Montageanleitung anliegend).
6. Install the pull handle bar or door knob (instructions enclosed).

7. Montage der Drehtür:
7. Installation of pivot door:

7.1 Drehtür auf die Achse des Bodenlagers und auf 7mm Unterlegklötze setzen.
7.1 Place pivot door onto spindle of bottom pivot bearing and additional 7mm support blocks.

7.2 Tür lotrecht unter das obere Drehlager schwenken.
7.2 Align swing door into plumb position.

8. Montage des oberen Drehlagers:
8. Installation of top pivot bearing:

8.1 Oberes Drehlager entsprechend der Einbausituation mit der Buchse auf den Zapfen schieben (siehe unten).
 8.1 Slide the top pivot bearing according to installation situation with the bush onto the PT 25 bolt (see below) .

9. Ausrichtung der Drehtür:
9. Adjustment of pivot door:

Einstellung der Türhöhe, Nullstellung, sowie die Seitliche Luft unten:
 siehe Montageanleitung des Bodentürschließers!

Adjutment of door height, zero position, as well as lateral clearance at the bottom:
 Please see instruction of floor spring!

9.2 Tür einstellen und Schrauben anziehen.
 9.2 Adjust the door and tighten the screws.

9. Ausrichtung der Drehtür:
9. Adjustment of pivot door:

Verstellmöglichkeiten des Einsatzes im oberen Drehlager zur Ausrichtung der Drehtür am PT 25.
 Possible adjustments for insert in the top pivot bearing to adjust the swing door to PT 25.

Einstellung mittels Gewindestifte
 Adjustment by means of grub screws

Einsatz um 90° gedreht, zusätzlich
 einstellbar mittels Gewindestifte

Insert rotated to 90°, also
 adjustment by means of grub screws

10. Nullstellung der Drehtür:
10. Zero position of pivot door:

Einstellung:
Adjustment:

10.1 Einstellung mittels Gewindestifte
 10.1 Adjustment through grub screws

10.2 Nach erfolgter Einstellung der Nullstellung, Gewindestifte fest anziehen!
 10.2 After adjustment is completed, tighten the grub screws!

11. Deckel auf Punkthalter montieren:
11. Installation of clip-on cover onto single-point fixings:

Ausschnitt / cut out

11.1 Deckel schräg einlegen und eindrücken.
11.1 Insert cover towards one side, push in with minimum force.

Ausschnitt / cut out

11.2 Zur Demontage des Deckels, mit dem Fingernagel oder einem anderen weichen Gegenstand an die Kante des Deckels drücken. Der Deckel springt raus.
11.2 To disassemble the cover, press the edge of cover with the fingernail or another soft subject. The cover will jump out.
