

# Combi B 30

We make access in  
life smart and secure.

# Proven reliability, maximum flexibility and high end design

With significant extensions in functionality and ease of use, the new model „Combi B 30“ leaves almost no wishes unfulfilled. The timeless, flat metal input is a perfect fit for each safe.

Our customers esteem the mechanical redundancy and it's guaranteed all time reliability with the well known double bit key system. The batteries are integrated into the flat input unit. In addition of that an optional power supply can be used to power it permanently.

A PC-software allows the reading of the lock memory as well as a comfortable programming.

# Flexibility

- External power supply (option)
- Indirect power supply by alarm system (option)

## Certifications

- ECBS
- IMP
- A2P
- EN 1300 grade B
- VdS grade 2

## Flexibility

- One model, all mounting positions
- Optional boltwork handle
- Can be integrated into access control systems

The keypad and the knob of the input unit are designed to allow flexible mounting in all positions.

An optional bolt work handle is available fitting seamless in the modern design.

A suitable escutcheon in the same design can be added. Due to this modular system, a maximum flexibility is achieved for installation.

The Combi B 30 can be complemented or retrofitted with the optional VdS certified alarm box for the integration into alarm systems.

A connection at the existing access control elements, such as card or biometric reader, can be done with the separately controllable combi B lock unit and the required thumbturn adjustment module (Note: not certified).

## Design

- High-end
- Elegant
- Modern

The timeless design of the previous input unit has been modernized carefully and thus represents a new interpretation in the most elegant manner.

The modern design concept of the input unit and the bolt grip underlines the significance and the stability of your storage unit.

Both the input unit and the bolt mechanism handle are available in the following surfaces:

- Matt Chrome (standard)
- Shiny chrome
- Gilded
- Powder-coated black
- Powder-coated white
- Powder coated grey
- Other colours on request.
