ComboGard Pro Series

Programmable Electronic Combination Lock

LA GARD ComboGard Pro Series at a Glance

The ComboGard Pro Series electronic combination lock is a multi-user lock (1 Manager and 9 Users) that may be programmed either at the key pad or with a PC. The ComboGard Pro was developed to address the security requirements of a broad range of commercial and industrial markets.

The Windows™ based ComboGard Pro setup software has a user-friendly interface, allowing you to configure the lock and upload the information directly from the PC to the lock. The software feature includes variable combination lengths, user activation with or without codes, lock mode selection, external signal modes (used with the 2789 and 4002 alarm boxes) and the ability to set time delay values. Also included with the ComboGard Pro setup software is the LG-View 3X audit software, which provides a record of the last 63 lock events.

The ComboGard Pro may also be set up using the key pad only. Using the key pad setup option, the Lock Manager can choose variable combination lengths, activate up to nine users, select the lock modes and set time delay values.

- Retail
- Commercial
- Financial

Retail

«The ComboGard Pro is the logical choice for retail security needs, whether as a new installation or lock replacement. The quick install, easy setup and option for allowing multiple users make this lock ideal for most retail applications. The ComboGard Pro provides an economical solution that is configurable to your business requirements.»

Secure and flexible

Commercial

«A major benefit to using the ComboGard Pro in commercial applications is that Manufacturers and Distributors can quickly program the lock to suit the specific needs of each customer. Using the ComboGard Pro Setup Software to program the lock saves both time and money, allowing customer expectations to be not only met, but exceeded.»

Strong and dependable

Financial

«The ComboGard Pro has many financial applications including securing cash drawers and ATMs. The ComboGard Pro provides multiple user Access Control and Audit capabilities. With programmable features such as delayed openings, dual mode and silent alarm signal, the ComboGard Pro is an ideal solution for your financial Access Control needs.»
