3909 SURFACE AND FLUSH MOUNT ROCKERMER SWITCHES

Instructions

**3909S (Surface Mount)**
1. Remove decorative bezel around switch.
2. Mount switchbase in desired location.
3. Connect wires under appropriate terminals (Fig. 1).
4. Replace decorative bezel.

**3909F (Flush Mount)**
(Special Order Only)
1. Remove decorative cover of switch (key symbol) using a slot screwdriver to carefully pry it off.
2. Remove decorative bezel by grasping metal tabs and pulling bezel straight off.
3. Connect wires under appropriate terminals (Fig. 2).
4. Drill a 2-1/8¨ (55mm) hole in the drywall. Insert switch into hole. Tighten the two metal slot screws to extend drywall anchors, until switch is secure.
5. Replace decorative bezel and switch cover.

**NOTE**: Specifications are subject to change without notice. N/C – Normally Closed; N/O – Normally Open
