

A thick black vertical bar on the left side of the page, with two white squares positioned at the top and middle.

Product Certificate

DORMA-Glas GmbH
herewith certifies
that the product

BEYOND Pivoting

have been tested in an endurance test according to European EN 1154 standard. This took place in a series of exemplary tests; the fittings were mounted to a glass-door with 80 kg weight. Door width: 1000mm, door height: 2200mm. The corner patch fitting fulfils the demand given by the German DIN standard:

500.000 operations (cycles)
