

Plastic Weather Protection Caps

2030

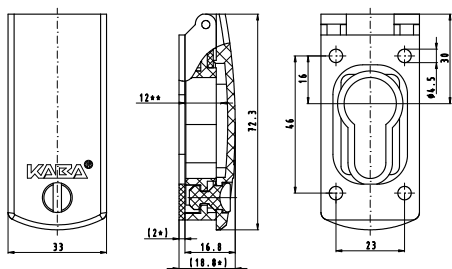

Application:

For lock cylinders subject to weather. Protects the cylinder from the effects of weather and dust and helps to keep the cylinder in service longer. Easy installation with adhesive strip or with four screws. The 2030 cap can be used with Euro-profile cylinders, Swiss round cylinders, camlocks 1031/1061 and switch cylinder SZM 85-3-033.

Specification:

Material: plastic, black
 Cap can be opened and closed with a screwdriver
 Bored for optional installation with four screws (screws not included)

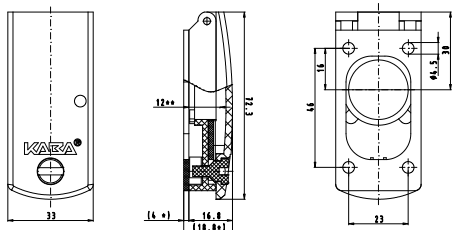

* Dimension with seal not under pressure
 ** Max. cylinder standoff (without seal under rosette)

2030PZ

Included with the cap:

Adhesive strip, sticky on both sides
