

# Saflok Quantum Pixel

## The Future of Multihousing Design

Quantum Pixel is the newest addition to the Quantum Series. It is a modern, ANSI/BHMA Grade 1 certified, door hardware locking solution featuring high-performing RFID security, a minimalist two-piece design and features a tamper resistant design with a solid steel one-inch deadbolt. Pixel is distinguished by having electronic components concealed within the door, creating a more engaging entrance.

## Access for the Mobile-Minded

Pixel is mobile enabled utilizing Bluetooth Low Energy (BLE), through BlueSky, our cloud-based mobile access application, property managers can turn a smart device into an authorized mobile credential providing simple and secure access to apartments, common and amenity areas and perimeter. BlueSky is available for both iOS and Android smart devices allowing for deployment across multiple properties.

## Community™ Access Management Software

Our state-of-the-art access management software offers credential management flexibility with multiple username/password levels, detailed system audit reports, and customizable credential programming. Based on feedback from leading multihousing developers and operators, community software offers an easy to use, web-based multiplatform solution providing centralized auditing and enhanced reporting features.

## Applications

Ideal for multihousing projects in order to meet the rising demand for greater digitization, security and convenience. It can deliver intuitive, interactive technology to provide safe and secure access throughout their entire property.
