

Security & Safety tips

from **dormakaba** 

Top dangers & risks for Universities

Theft

Are your premises safe from theft?

Data

Is your data storage secure?

Tailgating

Are the right people entering?

Fire Safety

Are your premises compliant?

Student safety

Are your students safe?

Valuable information

Can you ensure valuable information is guarded?

Threats

Are you preventing threats before they happen?

Actions to put in place:

- ☑ Make the campus smarter and safer
- ☑ Utilise the digital transformation on your premises
- ☑ The right access control solution – who has access, where and what times
- ☑ Choose the correct entrance systems and security doors for your buildings
- ☑ Back up your security with an integrated mechanical key system, this doubles the security
- ☑ Connect your campus - halls of residence, lecture halls, libraries are working under one integrated system
- ☑ Ensure your door systems are fire compliant
- ☑ Service and maintain these systems regularly
