CenBank Version 4.0 software released

The latest version of CenBank software is now available. CenBank 4.0 operates with Microsoft Windows 98, 2000 and XP. CenBank 4.0 was developed to allow those using Bank Mode to activate the Cencon Sublocking System, should the need arise.

The implementation package for those not currently utilizing CenBank includes software on CD-Rom, key reader with serial port connector, 6 Smart Keys, and necessary documentation.

Those currently using CenBank software wishing to upgrade need only order the upgrade package.

For PC users who do not have an available serial port, CenBank 4.0 can also be used with a USB connector for the key reader, which is sold separately.
