**KABA
MAS**

CATEGORY: Electronic

PRODUCT: Cencon System 2000®

BULLETIN NUMBER: MB001

APPLICATION: Cencon S2000 Lock Installation Change

DATE: 11/5/02

New dial makes Kaba Mas Cencon S2000 easier to install.

The Cencon model S2000 has a new dial that makes installation easier. Simply slide the new dial onto the spindle, followed by the spacer, clip, and finally, the decal. The new Dial Replacement Kit is re-usable and fits previous models, making the original dial, hub, spacer-gauge, and hex-key obsolete.

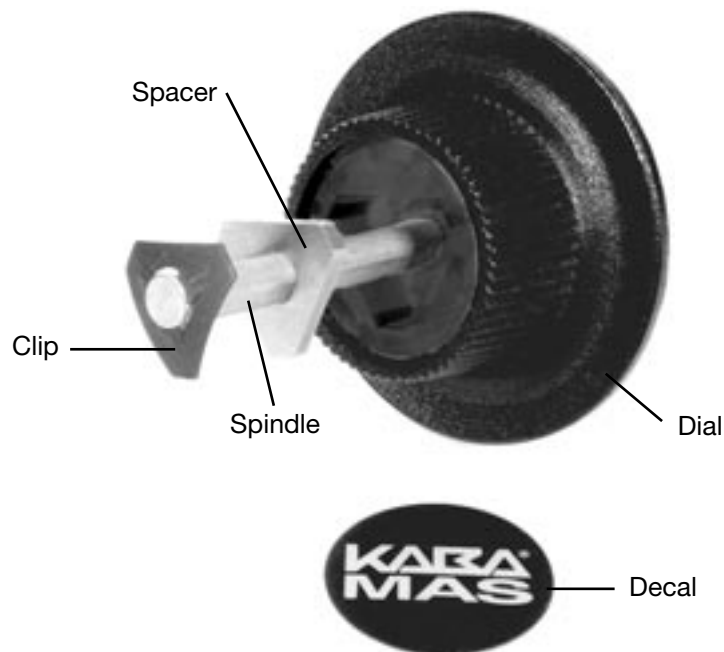

Updated installation instructions are included with each order of the Cencon S2000 lock as well as the Dial Replacement Kit. A downloadable PDF file of the installation instructions can be found at www.kaba-mas.com, in the documents and literature section.

For more information on Cencon System 2000, or the Kaba Mas family of products, please contact your local sales representative or visit us at www.kaba-mas.com.
