APPLICATION: X-09™ High Security Lock DATE: 3/18/03

X-09™ Cam Pawl Removal

The cam pawl has been removed from the X-09/CDX-09 locks. This change was implemented on 02/12/03 starting with S/N 00X0900102122003ARM.

If it becomes necessary to remove and reinstall the spindle nut during lock installation or maintenance, the drive cam can be secured by **carefully** placing a #1 Phillips screwdriver between the cam and the lock case as shown in the picture below. This procedure replaces the Service Tip found on page 11 of the X-09 Installation Instructions.

If you need additional assistance, please contact Kaba Mas Technical Support at 1(800) 950-4744.

About Kaba Mas

Kaba Mas, part of the world-wide Kaba group, is the world's leading manufacturer and supplier of high security, electronic safe locks. Its complete line of self powered, battery and mechanical locks meets virtually every safe lock requirement. Kaba Mas is dedicated to satisfying end-user needs for security, safety and convenience.
