

NEW

The new c-lever air

Ultra-flat design

Outstanding design – narrow dimensions

Our new electronic fitting is the first of its kind to be made as flat as a regular door plate.

This extraordinary design is a pioneering feat of engineering as most of the electronics are concealed in the lever handle rather than the fitting itself. As a result, this ultra-elegant design has won several design awards, including the iF Gold Award, and is perfect for combining with other dormakaba products. The c-lever air fitting supports the offline, Access on Card and online operating modes for operation with the parent access system software.

Technical information

Dimensions (mm) without lever handle

- Full leaf: 52 × 180 × 10.5 mm (W×H×D)
- Hollow profile: 40 × 282 × 11.5 mm (W×H×D)

Door specifications

- Door thickness: 35–110 mm
- Distance measurements: 72–92 mm
- Full leaf: 70–74 mm
- Hollow profile: 70–94 mm
- 7/8/9 mm square

Colour

- Stainless steel look; top cover in white or black

Advantages at a glance:

- New flat design
- No supply cables, batteries are integrated into the lever handle
- Easy to retrofit
